

Learning update

Friday, 14th June

Why don't you ask me about my learning this week? We have done lots of things that include:

English – Researching Highwayman, Figurative devices in poetry (hyperbole, metaphors, similes and personification), The Highwayman by Alfred Noyes, finding imagery in poetry, passive and active voice.

Maths – Fraction and decimal equivalents, Fractions, decimals and percentages.

Geography – What are the features of rivers? Where do we find these features on a river's course?

PE – Dodgeball and Athletics

Art - Drawing shells using oil pastels

End of year Maths Assessments.

Rehearsing our play - "Robin and the Sherwood Hoodies".

We had 100% Star Readers last week which is an incredible achievement - I hadn't even offered any bribes! Miss Murphy and I were very proud of them all – Keep it up Y5!

This week we have started our end of year assessments. The children have worked hard on their maths assessments and it has been good to see the progress they have made across in the year. In English, we have looked at a poem called "The Highwayman". Children have analysed the first parts of the poem, looking for figurative language devices.

Next week, Moulton is having our very first Sports Festival! Children in Y5 and 6 will be taking part in a variety of PE sessions with external coaches. They will get to experience a boot camp, laser tag, golf, cricket, netball and water sports in the school pool! Children should have brought the letter home yesterday with all the details about what they need to bring in.

Have a super weekend!

Miss Rutter

Free 10 minutes? You could...

Read!

You need to read 6 times a week to be a Star Reader.

Relax with a good book!

Times Tables!

Times Tables are hugely important!
