

Learning update

Thursday, 18th October

Why don't you ask me about my learning this week? We have done lots of things that include:

English – Correct use of commas, features of non-chronological reports, using the internet to research writing a non-chronological report.

Maths – Shape logical puzzles, differences between 2D and 3D shapes, labelling 3D shapes.

Computing – Creating hyperlinks within a powerpoint document.

Science – Why do we have seasons? Rocket Day write up.

PE – Netball.

Music – Creating their own motif.

Harvest Festival at Church.

I can't believe we are already at the end of our first half term! In English this week, we have looked at non-chronological reports. We have discussed the features of these texts, conducted research and written a report with a minimum of 6 sections. We have continued learning about the importance of commas. Keep an eye out for comma mistakes – they are everywhere! In maths, we have continued learning about the properties of 2D and 3D shapes. The children have tried really hard to get their heads around all the different terminology involved with shape.

I would like to congratulate the children in our class who have represented our school at football tournaments this week. They all played well and did Moulton proud.

I won't be settling a formal piece of homework over half term. I expect children to read and learn their spellings though!

Have a lovely half term and stay safe. I'll see you back at school on **Monday, 29th October.**

Miss Rutter

Free 10 minutes? You could...

Read!

We expect 5 read a week at Moulton!
Squeeze an extra read in to be a Star Reader.

Bonus RTs for children who are Star Reader over the half term break!

Times Tables!

We've had a bit of a passing drought this week – although several children are achingly close!

Get rocking on Times Table Rockstars!

Maths Facts

Practice maths facts!
Can your child tell you minutes to the next hour?
What is needed to add to get to 100 or 1000 from a given number?

Get practicing!
