YEAR 2 NEWS

ning update Learning update Learning update Learning update Learning upd

This week has been full of learning!

English: We have written our imitate texts for Izzy Gizmo with little changes for characters.

Maths: There has been lots of fraction learning happening this week. We've looked at a range of fractions and thought about fractions of amounts.

Science: On two afternoons, we looked at learning related to habitats. We explored what living things get from their habitats and why they are suited. We also thought about food chains and the flow of energy.

Computing: Detectives at the ready. Keyboard detectives that is looking for all the letters, numbers and special buttons on the laptop keyboards. It was great fun working in partners on this!

R.E: We thought deeply about our question 'Why do Christians follow and trust Jesus?' thinking about who we trust in our lives.

P.E. With Mrs Crook.

History: It was interesting to look at the history of the telephone and how they have made communication easier across distances.

Music: With Mrs Grosvenor.

We also won Bookster Bear for the class with the most star readers! Thank you for all of your consistent reading with your child!

Have a great weekend!

Mr T
