YEAR 2 NEWS

ning update Learning update Learning update Learning update Learning upd

Take a look at what we've been up to this week!

English: We've written our invent texts all about a character who has a wish. We also practised looking for evidence in a non-fiction text.

Maths: We have looked at turns and movements using mathematical language. We also had a fun maths lesson on Friday with Mrs Shipp!

Science: This week, we explored creatures that live in global habitats and thought about why they are suited to these habitats.

Topic: We looked at how messaging has improved and how quickly people can send messages via email or text compared to letters.

R.E. We built scenes from different Jesus stories and thought about why people might trust him or follow him.

Computing: We used Microsoft Word to create a short Newspaper Report about the Gingerbread man. We used image finding skills alongside our shortcuts that we'd learnt and typing skills.

Music: With Mrs Grosvenor.

P.E. Sports Day practise with Mrs Crook.

Have a great weekend.

Mr T
